<b>MAWA FRESHhanger</b> 	<b>The activated carbon technology in the FRESHhanger absorbs unpleasant odours and keeps clothes fresh.</b> The FRESHhanger is pulled over the hanger, thereover the clothes - and that's it! There is no need to air out and you can do without fragrance sprays or sachets, which only mask unpleasant odours. Activated carbon instead is one of the best absorbing materials of all. This technology is six times more effective than classic airing and saves too much washing. The cover fits on every MAWA hanger and remains effective up to six months. So you save time, money and resources with the FRESHhanger. Suitable for top clothing
